BONK OF AMERICA

Bonk Of America project originated as a fair launch on Solana blockchain under a ticker symbol $BONKFA. Project quickly pioneered the tokenization of the rewards system.

The Raiding Reward system named the ATM bot utility quickly spread through the telegram communities. As soon as the team achieved adoption on Solana, the project expanded to multichain. The goal of the project is to grow and evolve a rewards system that allows crypto communities to boost engagements and reward their audience and holders in their native tokens.

Our Ai powered memeutil project is built to generate various revenue streams through our tech and ad revenue, and share the Profits with the holders of the $BONKFA tokens on various blockchains.

KEY FEATURES

MEME
Bonk Of America pokes fun of the centralized banking system. It is also a play on words referring to the famous the Bonk

UTILITY
ATM bot is built to operate reward for engagement on Twitter. Future use on Youtube, TikTok. Tasks set on telegram, discord & user/admin dashboard
